Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1752

This application is up for consideration.

A. In view of (1) the complexity of the claims as set up and clients being overseas, this Office action is made.

B. Claims 1-12 are generic to a plurality of disclosed patentably distinct species comprising many possible additive species of (*) the general phosphate salts, (**) the general polyphosphate salts, (***) the general formula (1), (****) the general formula (I), (*****) the general formula (II) and (*****) the general formula (III) with some of the selected compounds being specified on page 13, line 6 to page 14, line 15 and pages 16 to 38. Applicant is required under 35 U.S.C. 121 to elect a single disclosed compound species for an initiation of a search, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

C. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-11, drawn to a concentrated bleach-fixing composition, classified in class 430, subclass 460.

Art Unit: 1752

- II. Claim 12, drawn to a method of bleach-fixing, classified in class 430, subclass 393.

Inventions of Group I and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process of bleach-fixing or desilvering as claimed can be practiced with one of many known bleaching compositions and one of many known fixing composition or known combined bleaching and fixing compositions or their commercial products. Applicants should show or provide a convincing evidence to the contrary. In the absence of convincing evidence, the restriction on the record would not be removed.

Because these inventions are distinct for the reasons given above and have acquired the separate status and searches in the art and can be supported the separate patents. Restriction for examination purposes as indicated is proper.

- D. An additional consideration or search for more than one invention or subclass in the art is burdensome.

- E. Applicant is advised that the reply to this requirement to be complete must include an election to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1752

F. Other issues have not been considered until full and proper elections are made and resolved.

G. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa V. Le whose telephone number is 571-272-1332.

The examiner can normally be reached from 6:30 AM to 4:30 PM on Monday through Thursday and about the same time of most Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526.

Applicants may file a paper by (1) fax with a central facsimile receiving number 703-872-9306. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
